

2014 URFC Pesticide Monitoring Report

Herbicide Use on the Usal Redwood Forest

To address the social and environmental aspects of community forestry, the RFFI Board has elected to not use forest herbicides to manage competing vegetation until the end of 2016. Instead it will use more costly non-chemical techniques, i.e., manual cutting, mastication, etc.

Year	Herbicide Name	Gallons of Herbicide	Area Treated
2010	N/A	0	0
2011	N/A	0	0
2012	N/A	0	0
2013	N/A	0	0
2014	N/A	0	0
